PROFESSIONAL SUMMARY

Software Engineer with **1 year experience** at Sofyrus Technologies skilled in React.js, Node.js, Python, AI/ML, and DevOps. Experienced in scalable app development, API integration, and data visualization. Proficient in AI-powered tools for coding and debugging. Certified in Full-Stack Development, Networking, and Generative AI. , and production-ready development.

SKILLS

Languages & Frameworks: Python, JavaScript , Java , React.js, Next.js, Node.js, Express.js, NestJS , FastAPI .

Databases: MongoDB, MySQL, SQL , Vector Database , PostgreSQL

Tools: Git ,GitHub, Docker, Linux, Postman , Antigravity, VS Code , Jupyter Notebook ,

Domains: Software Development , AI/ML, Networking , Data Management , AI-assisted Development

GenAi Platform : Gemini , OpenAI , Claude ,Hugging Face , AWS.

EXPERIENCE

Sofyrus Technologies – Software Engineer (May 2025 – Present | Aligarh, India)

- [Developed COCFO, a financial data management platform](#) combining QuickBooks, Zoho, Xero.,Wafeq
- Build and Integrated REST APIs, Using React.js for frontend, .net backend and managed data visualization,
- redux state management .
- Implemented CI/CD Github workflow for development server and assist the development team .
- Used AI tools to plan and enhance coding efficiency and reduce debugging time.
- Integrated Financial Ai assistant Chabot

AICTE – EduSkill Google AI-ML Virtual Internship (Jul 2024 – Sep 2024)

- Gained hands-on experience On ML DL models for real-world use cases.

AICTE – EduSkills Network Security Associate Internship (Jan 2024 – Mar 2024)

- Gained hands-on experience in network security fundamentals and threat prevention.

PROJECTS

- **MediBot** : AI medical assistant using LangChain + vector search
- **MediSync** : MERN doctor booking platform with roles & payments
- **AI ATS & Summarizer** : FastAPI + React resume screening tool
- **Password Manager** : MERN-based secure credential manager
- **Blog Platform** : MERN app with JWT auth & file uploads
- **ML Models** : Disease prediction models (~95% accuracy)
- **Airflow ETL** : Twitter data pipeline to PostgreSQL

CERTIFICATIONS

- Full Stack Developer Bootcamp - GeeksforGeeks.
- Advanced Diploma in Information Technology (ADIT).
- Big Data (NPTEL) , Introduction To Machine Learning , Data Analytics Essential (Cisco).
- Career Essentials in Generative AI - Microsoft & LinkedIn.
- Oracle OCI Gen Ai Professional Certificate.
- Accenture and Deloitte Job Simulation By Forage ,TCS Career Edge Young Professional.

EDUCATION

Master of Computer Applications - Galgotias University (2023 – 2025)

Bachelor of Computer Applications - Dr. Bhimrao Ambedkar University (2020 – 2023)
